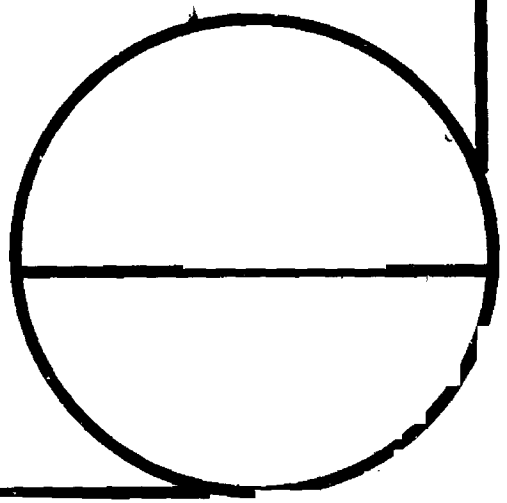
NO : 33/995

YEAR : 1895

EXPOSED BY : ANIL SAWANT

DATE : 22/05/2008



SZAG
42 L 2
A.R.

Rev: Sept.

Vol: 33

Para 19— The privilege of selling Country Liquor has been farmed out for three years certain beginning with 1st August 1893 on the minimum annual guaranteed revenue of Rs 80,000. The year under report is therefore the first year of the Contract.

The Liquor Consumed during the year was 22124 gallons and 45 drams against 25310 gallons in the year preceding, thus showing a decrease of 3185 gallons and 3 drams.

The Rajah farm is combined with that of Pairna and the spirit required for sale is brought from the distillery at the latter place stored at the Depôt here and distributed among the shops in the District. There was no demand for weak Liquor, the spirit Consumed was of 25 U.P. The increase in the realization is due to increase in the rate

Rate of Duty in the year under report.

The number of shops was the same as obtaining last year viz. 25.

Liquor Consumed	22134 gallons 45 drams.
Fees realized Rs	90269-7-2
Incidence per head	anna 1 and pies 7

The marginally noted figures show the quantity of Liquor Consumed, the fees realized and the incidence per head of population.

One more retail license for the sale of European Liquor was issued & hence there is an increase of Rs 200 in the amount of fees realized for Retail Licenses and also there is an addition of Rs 5 under the head of Petty fee for appointment of agents during the year compared with the year preceding as will be seen from the following figures:—

	1892-93	1893-94
		57
Fee for Wholesale Licenses No 5 at Rs 100 each	500	500
Fee for retail License at Rs 200	200	400
Fee for refreshment Rooms Licenses NOI	50	50
Extra fee for appointment of Agents	15	20
	765	970

No Change was made in the system of selling Raw tods during the year.

The subjoined table shows the results of the year as compared with that of the preceding.

	1892 93				1893-94			
	Licenses issued	Fees tapped	Fee realized	Incidence per head	Licenses issued	Fees tapped	Fee realized	Incidence per head
Fee of Wholesale	5				8			
Fee for toddy shops	1		20		5		100	
Domestic Consumption				Annas 2 & pies 6				Annas 2 & pies 8
Sale of Wholesale			3080				6425	
Shop License fee at Rs 20 per 25 trees								
Fee for tapping trees		1765	3530			1567	3135	
Extra fee for appointing Agents			9				39	
			6589				9697	

There was an increase of Rs 3393 in the Shop licence fees during a keen competition among the bidders at the time of the auction sale and a decrease of Rs 395 in the fee realized for tapping trees.

As usual eleven licenses (one for each Taluka) were issued for the sale of Bhang ganja during the year and the amount realized as licence fee was Rs 2656 against Rs 2396 in the year preceding thus showing an increase of Rs 260. Under the Head Fees for Transport Import and Export there was also increase of Rs 631 Compared with the realizations of the previous year the amount received being Rs 1830 against Rs 1199.

There was only one licence issued during the year under report-

Report as in the preceding year for the sale of Ma-jum and the amount of fee realized was Rs 361 against Rs 375 for the preceding year.

From the Cost year the old system of minimum guarantee vends of Opium was done away with. Under the new system the farmer is neither required to sell a fixed quantity nor has any license fees. He makes a clear profit of one anna per tola (difference between the fixed Government price and selling price) on whatever quantity he sells. With due prospect of gain and no fear of loss the tenders offered were numerous since the new system was introduced.

The quantity sold during the

There was an increase of Rs 3393 in the Shop license fees owing to a keen competition among the bidders at the time of the auction sale and a decrease of Rs 395 in the fee realized for tapping trees.

As usual eleven licenses (one for each Taluka) were issued for the sale of Bhang ganja during the year and the amount realized as license fee was Rs 2656 against Rs 2396 in the year preceding thus showing an increase of Rs 260. Under the Head Fees for Transport Import and Export there was also increase of Rs 631 Compared with the realizations of the previous year the amount received being Rs 1830 against Rs 1199.

There was only one license issued during the year under report

Report as in the preceding year for the sale of Opium and the amount of fee realized was Rs 361 against Rs 375 for the preceding year.

From the last year the old system of minimum guaranteed rent of Opium was done away with. Under the new system the farmer is neither required to sell a fixed quantity nor pay any license fees. He makes a clear profit of one anna per tola (difference between the fixed Government price and selling price) on whatever quantity he sells. With more prospect of gain and no fear of loss the tenders offered were numerous since the new system was introduced.

The quantity sold during the

The year was 10095 lbs
and 33 dollars against
9397 lbs in the year preceding

From,

H. J. Gimmaney, Esquire
Acting Collector of Poona

To,

W. Porteous, Esquire,
Commissioner C. D.

Sir,

Poona, 3rd October 1894

In compliance with
your No. R/1713 dated 16 May 1894
I have the honour to report
as follows on the state of the
Agricultural Stock of this
District during the year 1893-94

2. The following comparative
statement shows the Agricultural
Stock of the District.

Year	Cattle	Horses and Ponies	Sheep and Goats	Carts	Ploughs
1892-93	559131	13373	372919	25833	60021
1893-94	623796	14804	412629	27179	57546
Increase	64665	1431	39710	1346	.
Decrease	.	.	.	.	2475

3. There has been an increase under all heads except 'Ploughs'. The increase is attributed — partly to a larger number of births and partly to more correct registration under the supervision of the Agricultural staff. The slight decrease under 'Ploughs' is said to be due to the conversion of small ploughs into large ones, the figures for [illegible] heads for the year 1893-94 being respectively 29018 and 28528 against 33082 and 26939 for the year preceding.

I have the honour to be,

Sir,

Your most obedient servant

R Ommanney

Acting Collector.

The increase in bullocks is explained as due to a larger number of them having been castrated and used for agricultural purposes.

The decrease in sheep and goats is stated to be due to death, among them a larger number of cattle from epizootic diseases.

Appendix to the Agricultural return No V of Satara District for the year 1893-94. Explanatory memorandum of differences in excess of 10 per cent in the figures of 1893-94 compared with those of 1892-9

Return No	Column heading	District	Figures of Difference 1892-93	1893-94	Plus +	Minus —	Explanation
V	28 He buffaloes	Satara	14409	16050	1641	.	The No of bull buffaloes, he buffaloes and mules (Cols. 30, 32 and 41) is comparatively very small in this District, although it exceeds the last year's total by more than 10 per cent. They are, therefore, not shown in this statement. The increase in the No of he-buffaloes (Col. 28) which is particularly marked in
	35 Calves		92148	112026	19878	.	
	36 Buffalo Calves		44176	52877	8701	.	
	39 Goats		103092	120682	17590	.	
	45 Carts for riding		1547	1018		529	

Walwe Khanapur, and Patan Satara is probably due to the increasing prosperity of the district.

The increase in the No of young stock (Cols 35 + 36) is apparent almost everywhere. It is due partly to the No. of young stock having been abnormally small in 1892-93 in consequence of the bad season of 1891-92, when breeding animals were insufficiently nourished; (2) partly to village officers having become more careful to enter calves in their returns owing to the supervision exercised by the Agricultural Department.

The increase shown in the No of Goats is probably

due in part to more correct registration. No other explanation of the large increase in their No. can be given.

The decrease shown in the No. of riding carts is particularly noticeable in Satara Taluka, where some of the carts, ordinarily used for carrying loads, had, in former years, been wrongly shown as riding carts by some Kulkarnees. This error was remedied this year, and hence the decrease. In the remaining Talukas the difference under this head is too insignificant to call for any remarks.

Cotton sown in red soil.

Former proceedings – "Comp.ge of 1859."

No. 1058 of 1859.

From,

W. D'Oyly Esquire

Acting 1st Assistant Collector in charge

To,

E. G. Jawett Esquire

Revenue Commissioner S. D.

Poona

Belgaum Collector's Office

Badamee, December 19. 1859

With reference to your Endorsement No. 7169 dated the 22nd October last, I have the honor to state that it appears on enquiry that the Cotton seed sown in red soil came up and the the plants thrived as long as the rain lasted but withered as soon as it ceased; the roots were found to have penetrated but a short distance below the surface of the soil. The red soil is too hard and impenetrable for cotton, it dries up quickly and cakes after the rains. Cotton is no where in this Collectorate, or I believe in any part of

the

of the Presidency grown in red soil, a sufficient proof it must be naturally suscepted to Cotton.

N. I. No. 23.

Submitted to Govt by the Revenue Commr S.D. under date the 30th Augt 1859 No. 1771.

Govt: 9007 59. 2.

In a letter dated the 24th August 1859 No. 300, the Coll.r of Belgaum reported the result of the experiment made in that Collectorate with regard to the irrigation of cotton growing lands & have been that Cotton could not be grown profitably in his Districts on red soil, and that in black soil irrigation was positively injurious to the crop.—

2. A copy of the Revenue Commr's Memo: and of the Coll.r's letter, as well as samples of the cotton produced and which were subsequently received fro. the Revenue Commr S.D. were sent to the Chamber of Commerce and their opinion requested on these samples.—

3. The Chamber of Commerce under date the 13th Octr 1859, No. 112 made the following report:

"The samples sent are unusually inferior the "color is bad, the staple partly perished and having "the appearance either of having been left long "on the plants exposed to sun and rain, or of "having been collected after it had fallen to the "ground.— The value could not be estimated at more "than 3d to 3½ per lb assuming Middling Orleans "Cotton to be worth 7d.

"The unirrigated experiment in the Red soil "appears to have produced no Cotton whatever "and as this is rather an extraordinary circumstance "it would be interesting to know when the sowing "took place and what were the causes of so "absolute a failure whether the seed ever came "up at all, and if so, whether the loss of crop was "produced by rains insects or any other cause".—

4. A copy of the Chambers letter was on the 21st Octr 1859, No. 4179 forwarded to the Revenue Commr S.D. for report and Mr. Fawcett now forwards a letter from the Acting 1st Asstt Coll.r of Belgaum in charge on the subject.—

5/1/60

H. J. No. 23.

Submitted to Govt by the Revenue Comm^r S.D. under date the 30th Aug^t 1859 No. 1771.

In a letter dated the 24th August 1859 No. 700 the Coll^r of Belgaum reported the result of the experiment made in that Collectorate with regard to the irrigation of Cotton growing lands & have been that Cotton could not be grown profitably in his Districts on red soil, and that in black soil irrigation was positively injurious to the crop. —

Govt: 907 of 59. 2.

A copy of the Revenue Comm^rs Memo: and of the Coll^rs Letter, as well as samples of the Cotton produced and which subsequently were received from the Revenue Comm^r S.D. were sent to the Chamber of Commerce and their opinion requested on these samples. —

3. The Chamber of Commerce under date the 13th Oct^r 1859 No. 112 made the following report.

"The samples sent are unusually inferior the "color is bad, the staple partly perished and having "the appearance either of having been left long "on the plant exposed to sun and rain, or of "having been collected after it had fallen to the "ground. — The value could not be estimated at more "than 3d to 3½ per lb assuming Middling Orleans "Cotton to be worth 7d.

"The unirrigated experiment in the Red soil "appears to have produced no Cotton whatever "and as this is rather an extraordinary circumstance "it would be interesting to know when the sowing "took place and what were the causes of so — "absolute a failure whether the seed ever came "up at all, and if so, whether the loss of crop was "produced by rains insects or any other cause". —

4. A copy of the Chamber's Letter was on the 21st Oct^r 1859 No. 4179 forwarded to the Revenue Comm^r S.D. for report and Mr Fawcett now forwards a letter from the Acting 1st Assist^t Coll^r of Belgaum in charge on the subject. —

Secretary to Government.
Poona, Civil Court's office.
30th June 1860.

Sir,

With reference to the correspondence ending with your endorsement No. 998, dated the 17th March 1859, I have the honor to report for the information of Government the results of the further experiments of planting Egyptian Cotton in the Dharwar and Belgaum Collectorates of this Division during the year 1859-60.

2nd The Collector of Dharwar in his Correspondence has furnished no details, but his Report is several terms as follows:-

"I have the honor to report that this experiment like the previous one has proved a failure.

I am of opinion that this variety is unsuited to the climate of the Country, and that no advantage will be derived from making any further experiments"

Mr. Seton Kerr the Collector of Belgaon, reports as follows.

"The seed was distributed gratuitously to some intelligent cultivators in the following Districts.

1. Badamee 4 Villages
2. Bandhote 3 do
3. Hoonsood 15 do
4. Gokak 10 do
5. Sawadatti 7 do
6. Parasgur 1 do

which contain the best cotton land in the Collectorate. The cultivators were enjoined to sow early and to pick the cotton promptly as it ripened, and I am informed that

that these injunctions were attended to.

The result has been as follows.

In (1) Badanee the cotton came up in two villages and failed totally in the other two.

In (2) Bapulkole the cotton came up in one village and failed totally in two.

In (3) Koonpond the cotton came up in six and failed in nine.

In (4) Kolakil it came up in one and failed in nine.

In (5) Lasgaon it came up in five and failed in two.

In (6) Purnapur the seed was distributed in twenty six lots — twenty four of which succeeded and two failed.

It seems clear that the seed was good for otherwise its failure to germinate would have been general. Its partial failure must I think be attributed to bad management

on

"for the part of the cultivators in
"Coimbatore some unfit place untill
"tried.

"I forward by Bandy six
"packets containing samples of
"the cotton grown each of the six
"Districts in which the experiments
"has been tried. The yield I am
"informed was scanty and the opera-
"tion altogether unprofitable and the
"Cultivators have expressed themselves
"unwilling to sow any more seed of
"the same sort.

"About four ~~fifths~~ of the
"seed was sent by me to Dr Gibson,
"and I should be glad to learn
"if in his hands the experiment
"has succeeded."

The result has thus been
a failure in both Collectorates, and
as no advantage seems likely to
follow further experiments I beg to
recommend that they be not attempted.

The samples of cotton
alluded

alluded to by Mr Seton Karr, will be handed on, as soon as received.

I have the honor to be,
Sir,
Your most obedient Servt.

M Rose
Revenue Commissioner S.D.

From

The Revenue Commissioner S.D. No 1161, dated 30th June 1860. Reporting for information, the results of the further experiment of planting Egyptian Cotton in the Dharwar and Belgaon Collectorates of this Division during the year 1859/60.

Memo.
No 1221 of 1860.
Rev. Department
Somerset House. Rev. Com.rs Office.
10th July 1860.

The undersigned presents Compliments to the Secretary to the Bd of T. in the Rev.d Department and begs to forward, herewith, the Sample of Egyptian Cotton, the produce of the Bedouan Districts alluded to in the last para. of the letter from this Office No 1161, dated the 30th ultimo

in a separate packet

Rev. Commissioners
&c.

R. D. No 2987.

In 1856/57, an experiment of planting Egyptian Cotton in the Dharwar Collectorate having partially succeeded Govt at the recommendation of the Coll.r & Revenue Commr S. D. authorized the experiment being carried on on a larger scale during the season of 1857/58.

2 With this object a quantity of Cotton seed was obtained from Egypt and forwarded to the Coll.rs of Belgaum & Dharwar for distribution among the Ryots.—

3. The experiment tried however in 1857/58 was reported to have partially failed owing it was believed, to the late period at which the seed was sown by the Cultivators.—

Vol: 33/58 P. 33

4. Government being desirous that the expediency of introducing the cultivation of Egyptian Cotton into this Country should be fully and fairly tested, resolved on making a further experiment, and with this view requested the Honble Companys Agent at Alexandria to arrange for the transmission to Bombay of an additional supply of eight bales of Egyptian Cotton Seed so as to ensure its arrival about March in time for sowing early the ensuing season.—

Lett. 6/Feb. Cotton ... 1859 ... 29 ... 1859

Govt 465/59

5. The eight Bales of Seed were duly received; they were forwarded to Dharwar & Belgaum in the proportion of 5 Bales to Dharwar & 3 to Belgaum.—

Vol: 52/59 (N. 317) Lett. 6. Cotton ... 1315 ... 1859

6 About the same time an application was made by the Supt. Botanical Gardens in reference to a correspondence regarding the early planting of Exotic Cotton, to be furnished with Cotton seed for experiment by him.— Dr Gibson was informed of the supply of Egyptian seed which had been sent to Dharwar & Belgaum as also of the supply of new Orleans Cotton Seed which had been received by Govt from the Manchester Cotton Supply Association & forwarded to those Collectorates and to Guzerat & Sind, and directed

to

Rec'd 12 Jan 1900

S. D. No 2987.

In 1856/57, an experiment of planting Egyptian Cotton in the Dharwar Collectorate having partially succeeded Govt at the recommendation of the Coll.r & Revenue Commr S. D. authorized the experiment being carried on on a larger scale during the season of 1857/58.

2 With this object a quantity of Cotton seed was obtained from Egypt and forwarded to the Coll.rs of Belgaum & Dharwar for distribution among the Ryots.—

3. The experiment tried however in 1857/58 was reported to have partially failed owing it was believed, to the late period at which the seed was sown by the Cultivators.

4. Government being desirous that the expediency of introducing the cultivation of Egyptian Cotton into this Country should be fully and fairly tested, resolved on making a further experiment, and with this view requested the Honble Company's Agent at Alexandria to arrange for the transmission to Bombay of an additional supply of eight bales of Egyptian Cotton Seed so as to ensure its arrival about March in time for sowing early the ensuing season.—

Vol: 33/58 P. 33

Lett. to Agt. Alexandria No 1-29 dated 4th Feb. 1858

5. The eight Bales of Seed were duly received; they were forwarded to Dharwar & Belgaum in the proportion of 5 Bales to Dharwar & 3 to Belgaum.—

Govt 465/59

6 About the same time an application was made by the Supt Botanical Gardens in reference to a correspondence regarding the early planting of Exotic Cotton, to be furnished with Cotton seed for experiment by him.— Dr Gibson was informed of the supply of Egyptian seed which had been sent to Dharwar & Belgaum as also of the supply of New Orleans Cotton Seed which had been received by Govt from the Manchester Cotton Supply Association & forwarded to those Collectorates and to Guzerat & Sind; and directed to

Vol: 52/59 P. 317

Lett. to Gibson No 1315 dated 24 Aug.

to procure a supply of the seed from the Officers to whom it had been sent.

7. From a report from the Coll.r of Dharwar submitted with a Memo. from the Revenue Comm.r S. D. No 1692 dated the 17.th August 1859 it appeared that the experiment of introducing the Egyptian variety of Cotton into that Collectorate during the past season had proved a failure - moderately good crops having only been obtained in the Dumbul Talooka. Comp. 46

8. From a report made by the Chamber of Commerce to whom a copy of the above Papers together with samples of New Orleans & Egyptian Cotton received from the Coll.r of Dharwar were forwarded, it appeared that in their opinion the quality of these samples were satisfactory. they requested information as to the particulars of the Dumbul experiment the dates of sowing the width of drills, the dates of ripening of the crop, and the causes of the small outturn whether from injury of rain destruction by insects or by over-crowding of the plants -

9 A copy of the report received from the Coll.r of Dharwar and of a Statement appended by that Officer shewing the details of the experiment in the Dumbul Talooka in 1858/59 was forwarded to the Chamber of Commerce - under date the 25.th Jan.y 1860 No 330. - Comp.

10. With his present letter the Revenue Comm.r S. D. submits reports of the results of the further Egyptian experiments in the Dharwar and Belgaum Collectorates during the year 1859/60 from which it appears that the experiment has proved a failure in both the Collectorates.

11. The Coll.r it appears has forwarded to the Revenue Comm.r six packets containing samples of the Cotton from each of

the six districts in which the experiment has been tried, and has reported that about 4 lbs of the seed was sent by him to Dr. Gibson, a wish to which was expressed by Mr. Seton Karr to learn if Dr. Gibson's experiment had succeeded.—

12. Mr. Rose is of opinion from the circumstance that the result has been a failure in both the Collectorates of Dharwar & Belgaon that no advantage will likely follow further experiments, and he recommends therefore that they be not attempted.—

13. The samples of Cotton alluded to by Mr. Seton Karr, have since been forwarded by Mr. Rose.—

? I.R. 3124.

Elec

Govt. The proceedings of Mr. Rose in connection with the experiment a failure. The Revenue Board should ascertain whether the experiment conducted by Dr. Gibson has been more successful

No. 85 of 1890.

From,

The Superintendent of Survey
& Kanara.

To,

The Collector of
Kanara.

Camp Dharwar 11th July 1890.

Sir,

With reference to the Correspondence
regarding the disforestment
of Survey No. 15 in the village of
Garadoli in the Supa Taluka, I
have the honor to forward herewith
a draft notification and request
that you will cause the same to be
published in the Bombay Government
Gazette.

In accordance with instructions
contained in your letter No. 1136
the 15th April last the reason for
disforestment is as follows:—

Yours

Received 14/7/90

Hereon to be returned.

The Mamlutdar reports that the number in question is now, and has been under cultivation since the year 1875 and the rent regularly paid by the present Khatadar. The land being under cultivation at the time of Forest Settlement it must have been a mistake, it being taken up and gazetted as Reserved Forest. It adjoins other cultivation and there seems no special reason for its having been included in the forest; hence the application for disforestment.

12/4/80

I have the honor &c

Forests: Exclusion from reserved —— of certain land in the Haliyál Táluka of the Kánara District.

No. 6584.

REVENUE DEPARTMENT.

Bombay Castle, 18th September 1890.

Letter from the Conservator of Forests, S. C., No. 1980, dated 9th August 1890:—

"I have the honour to forward the accompanying papers regarding the disforestment of Survey No. 15 of Gardoli in Haliyál Division of the Supa Táluka of Kánara.

"2. The forest [illegible] included in Government Resolution No. 7394, dated 15th December 1876, and the Survey No. 15, in question, with other lands notified 'Reserved Forest' under Section 34 of the Forest Act, 1878, in Government Notification No. 15-F., dated 1st March 1879. I think therefore that the error in the list gazetted can only be rectified with the sanction of the Government of India."

Letter from the Commissioner, S. D., No. 3041, dated 12th August 1890:—

"I have the honour to forward the enclosed correspondence, and to request the favour of the Government of India's being moved to disforest the occupied assessed Survey No. 15 in the village of Gardoli, Táluka Supa in the Kánara District, notified as reserved forest by an oversight in 1879."

Conservator of Forests, S. C.'s No. 1980, dated 9th August 1890.
Forest Settlement Officer, Kánara's No. 85, dated 11th July 1890, and subsequent correspondence.

Letter from the Under Secretary to the Government of India, Revenue and Agricultural Department (*Forests*), No. 741-F., dated 2nd September 1890:—

"In reply to your letter No. 5972, dated the 22nd ultimo, I am directed to convey the sanction of the Government of India to the issue by the Bombay Government of a Notification, under Section 26 of the Indian Forest Act (VII of 1878), declaring that, from a date to be fixed in such Notification, Survey No. 15 of the village of Gardoli in the Haliyál Táluka of the Kánara District, the area of which is stated to be $12\frac{1}{10}$ acres, shall cease to be Reserved Forest."

RESOLUTION.—The requisite notification directing the exclusion of the land in question from reserved forest from 1st October 1890 should be published in the *Bombay Government Gazette*.

Acting Under Secretary to Government.

"I have the honour to forward the enclosed correspondence, and to request the favour of the Government of India's being moved to disforest the occupied assessed Survey No. 15 in the village of Gardoli, Táluka Supa in the Kánara District, notified as reserved forest by an oversight in 1879."

Conservator of Forests, S. C.'s No. 1980, dated 9th August 1890.
Forest Settlement Officer, Kánara's No. 85, dated 11th July 1890, and subsequent correspondence.

Letter from the Under Secretary to the Government of India, Revenue and Agricultural Department (*Forests*), No. 741-F., dated 2nd September 1890 :—

"In reply to your letter No. 5972, dated the 22nd ultimo, I am directed to convey the sanction of the Government of India to the issue by the Bombay Government of a Notification, under Section 26 of the Indian Forest Act (VII of 1878), declaring that, from a date to be fixed in such Notification, Survey No. 15 of the village of Gardoli in the Haliyál Táluka of the Kánara District, the area of which is stated to be $12\frac{1}{16}$ acres, shall cease to be Reserved Forest."

RESOLUTION.—The requisite notification directing the exclusion of the land in question from reserved forest from 1st October 1890 should be published in the *Bombay Government Gazette*.

Acting Under Secretary to Government.

To

The Commissioner, S. D.,

Forests: Exclusion from reserved —— of certain land in the Haliyál Táluka of the Kánara District.

No. 6584.

REVENUE DEPARTMENT.

Bombay Castle, 18th September 1890.

Letter from the Conservator of Forests, S. C., No. 1980, dated 9th August 1890:—

"I have the honour to forward the accompanying papers regarding the disforestment of Survey No. 15 of Gardoli in Haliyál Division of the Supa Táluka of Kánara.

"2. The forest settlement of the Haliyál Mámlat of Supa was sanctioned in Government Resolution No. 7394, dated 15th December 1876, and the Survey No. 15, in question, with other lands notified 'Reserved Forest' under Section 34 of the Forest Act, 1878, in Government Notification No. 15-F., dated 1st March 1879. I think therefore that the error in the list gazetted can only be rectified with the sanction of the Government of India."

Letter from the Commissioner, S. D., No. 3041, dated 12th August 1890:—

"I have the honour to forward the enclosed correspondence, and to request the favour of the Government of India's being moved to disforest the occupied assessed Survey No. 15 in the village of Gardoli, Táluka Supa in the Kánara District, notified as reserved forest by an oversight in 1879."
